Michigan State University

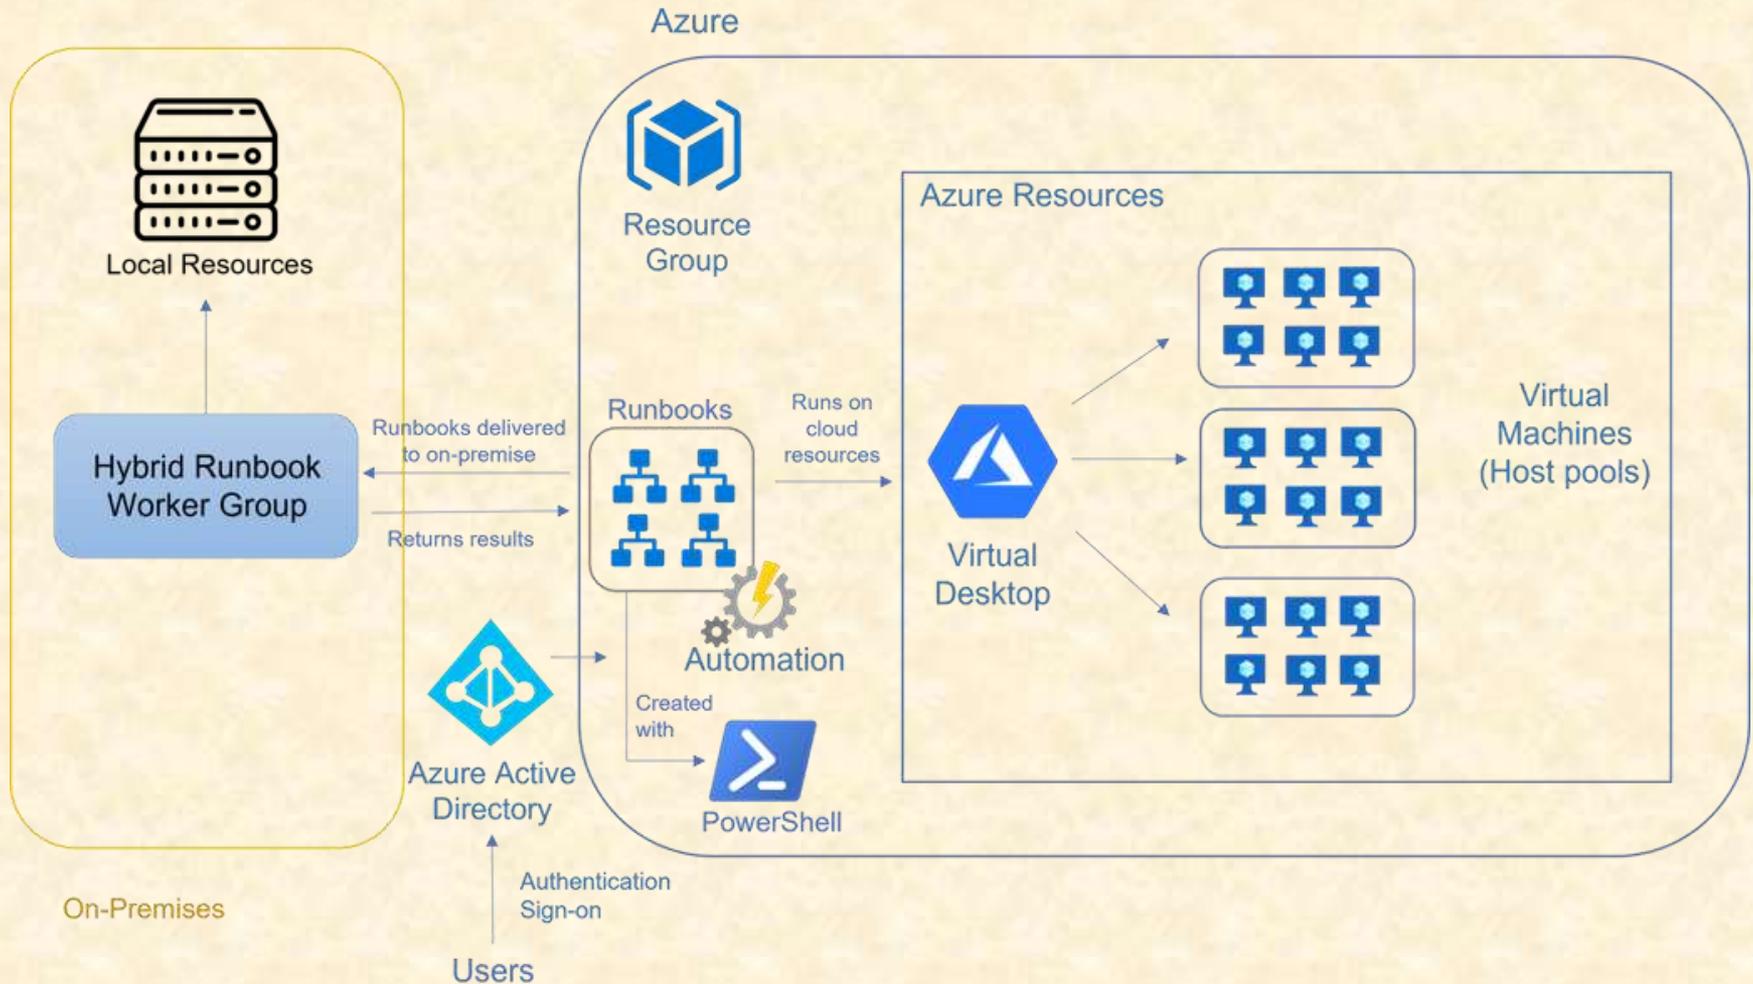

Fall 2021

Project Overview

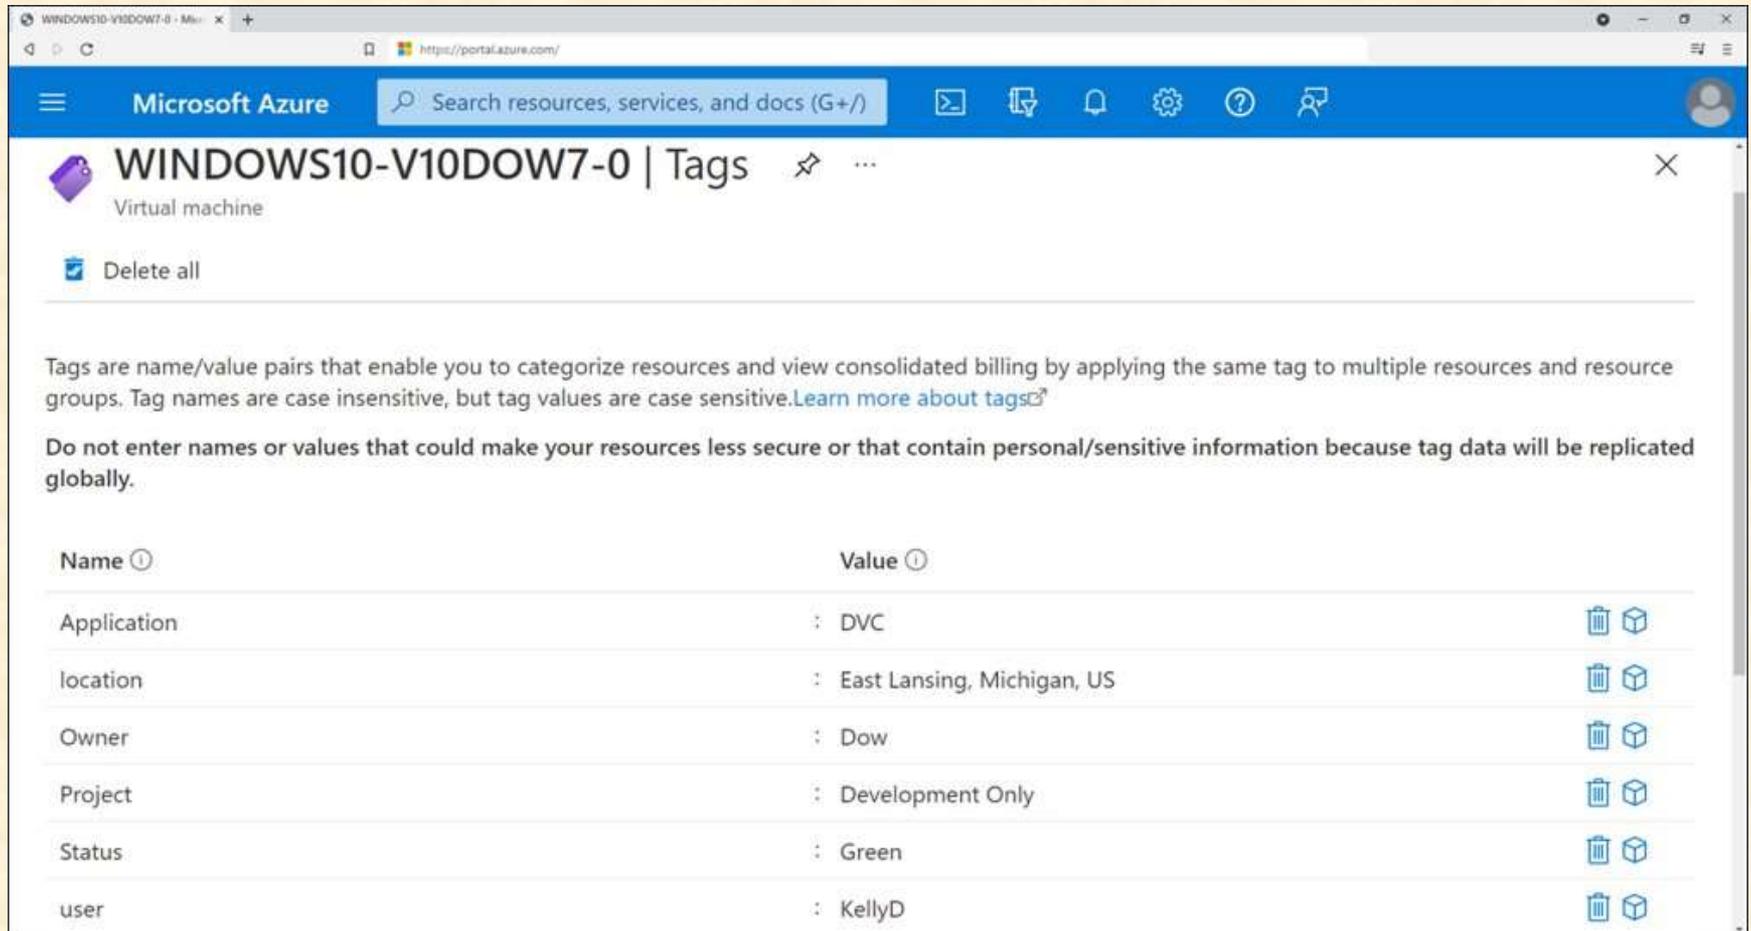

- Transition from persistent to non-persistent state
- Automate tagging of virtual machines
- Report on users with multiple virtual machines

System Architecture

Virtual Machine Tags

The screenshot shows the Microsoft Azure portal interface. At the top, there is a navigation bar with the Microsoft Azure logo and a search bar. Below the navigation bar, the page title is "WINDOWS10-V10DOW7-0 | Tags" with a sub-label "Virtual machine". A "Delete all" button is visible. The main content area contains a paragraph explaining tags: "Tags are name/value pairs that enable you to categorize resources and view consolidated billing by applying the same tag to multiple resources and resource groups. Tag names are case insensitive, but tag values are case sensitive. [Learn more about tags](#)". Below this is a warning: "Do not enter names or values that could make your resources less secure or that contain personal/sensitive information because tag data will be replicated globally." A table lists the tags for the virtual machine:

Name ⓘ	Value ⓘ	
Application	: DVC	 
location	: East Lansing, Michigan, US	 
Owner	: Dow	 
Project	: Development Only	 
Status	: Green	 
user	: KellyD

Begin looking over vms for tagging

No new changes were needed for vm1-0

No 'user' tag exists. Tag was added to vm2-0

No new changes were needed for vm3-0

No new changes were needed for vm4-0

Updated 'user' tag because it was null for vm5-0

'user' tag value was incorrect. Added correct value for vm6-0
```

SharePoint VM Report

The screenshot shows a SharePoint interface for a site named 'capstone'. The top navigation bar is blue with the 'SharePoint' logo and a search box labeled 'Search this list'. On the left, a vertical navigation pane lists 'Home', 'Conversations', 'Documents', 'Shared with us', 'Notebook', 'Pages', 'Site contents', 'VM_Report' (highlighted), and 'Runbook_Report'. The main content area features a '+ New' button and a toolbar with 'Edit in grid view', 'Share', 'Export', 'Automate', and 'Integrate'. Below this is a table titled 'VM_Report' with columns for 'UserID', 'VMs', 'Name', and 'Count'. The table contains two rows of data.

UserID	VMs	Name	Count
user1	vm5-0, vm2-0	Darren Kelly	2
doylepa9	vm6-0, vm3-0	Patrick Doyle	2

SharePoint Runbook Log Report

The screenshot shows a SharePoint site for a site named 'capstone'. The left-hand navigation pane includes links for Home, Conversations, Documents, Shared with us, Notebook, Pages, Site contents, VM_Report, and Runbook_Report (which is currently selected). The main content area displays a list titled 'Runbook_Report' with a star icon. Above the list are several action buttons: '+ New', 'Edit in grid view', 'Share', 'Export', 'Automate', 'Integrate', and a menu icon. The list itself has four columns: 'RunbookName', 'CreationTime', 'Status', and 'LastModifiedTime'. There are six rows of data, all with a status of 'Completed'.

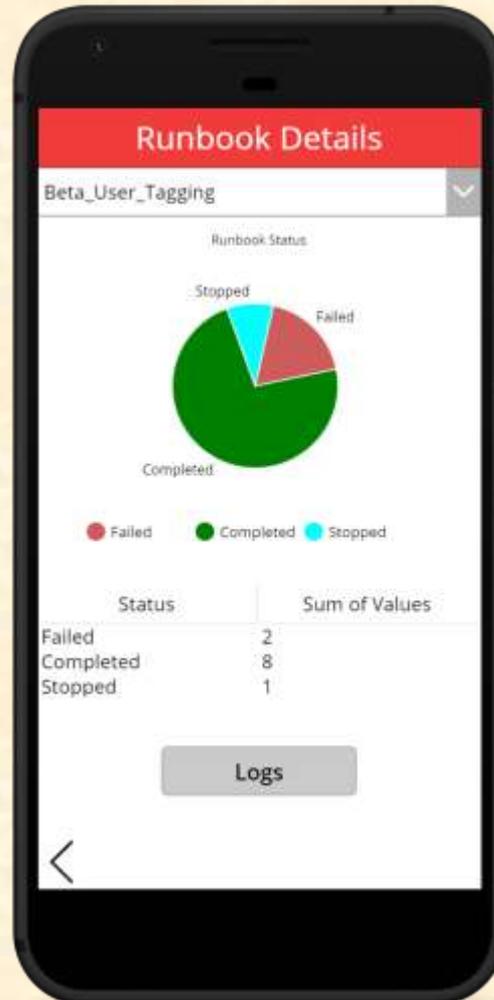

RunbookName	CreationTime	Status	LastModifiedTime
Beta_User_Tagging	11/14/2021 6:11 PM	Completed	11/14/2021 6:12 PM
Beta_Location_Tagging	11/14/2021 6:03 PM	Completed	11/14/2021 6:04 PM
Beta_User_Tagging	11/14/2021 5:51 PM	Completed	11/14/2021 5:53 PM
Beta_User_Tagging	11/14/2021 5:38 PM	Completed	11/14/2021 5:44 PM
Beta_User_Tagging	11/14/2021 5:33 PM	Completed	11/14/2021 5:34 PM

Microsoft Power App Assigned VMs Per User

Microsoft Power App Runbook Logs

What's left to do?

- Stretch Goals
 - Finishing AD user migration script
 - Adding/Removing of AD owners
- Other Tasks
 - Finish migration from local to Dow environment
