Michigan State University

Fall 2011

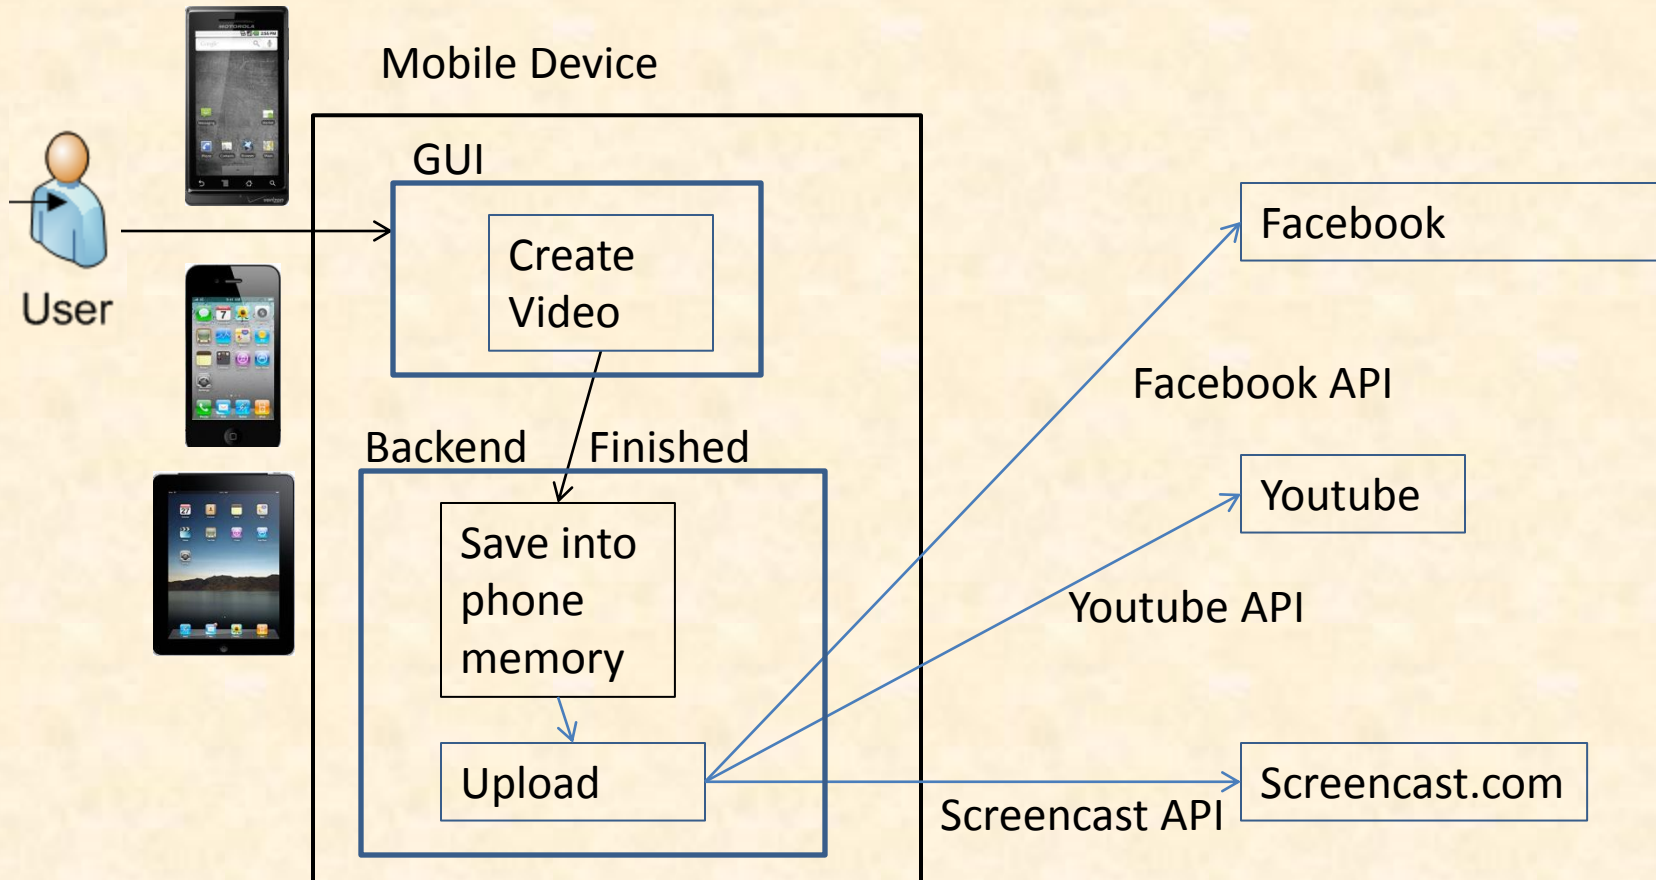

*From Students...
...to Professionals*

Project Overview

- The Mobile Web Reporter Application will allow users to personally create a report and post it on the web for the general public to view.
- The user should be able to search the web for content, show video from the camera and speak on what they see, feel, and hear. All in real time.
- The user can upload this video to YouTube, Facebook and Screencast.com

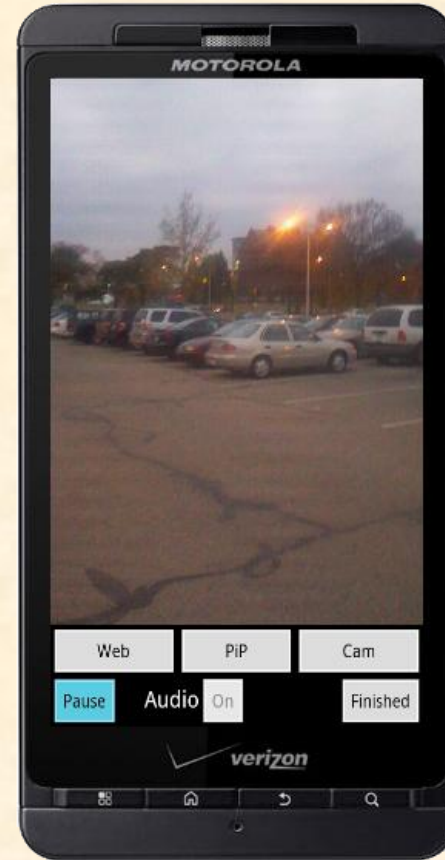

System Architecture

Parking Report Web

Parking Report Cam

Parking Report PiP

What's left to do?

- Improve frame-rate
- Try different threading approaches
- UI Improvement
- Fix Bugs
