Fall 2016

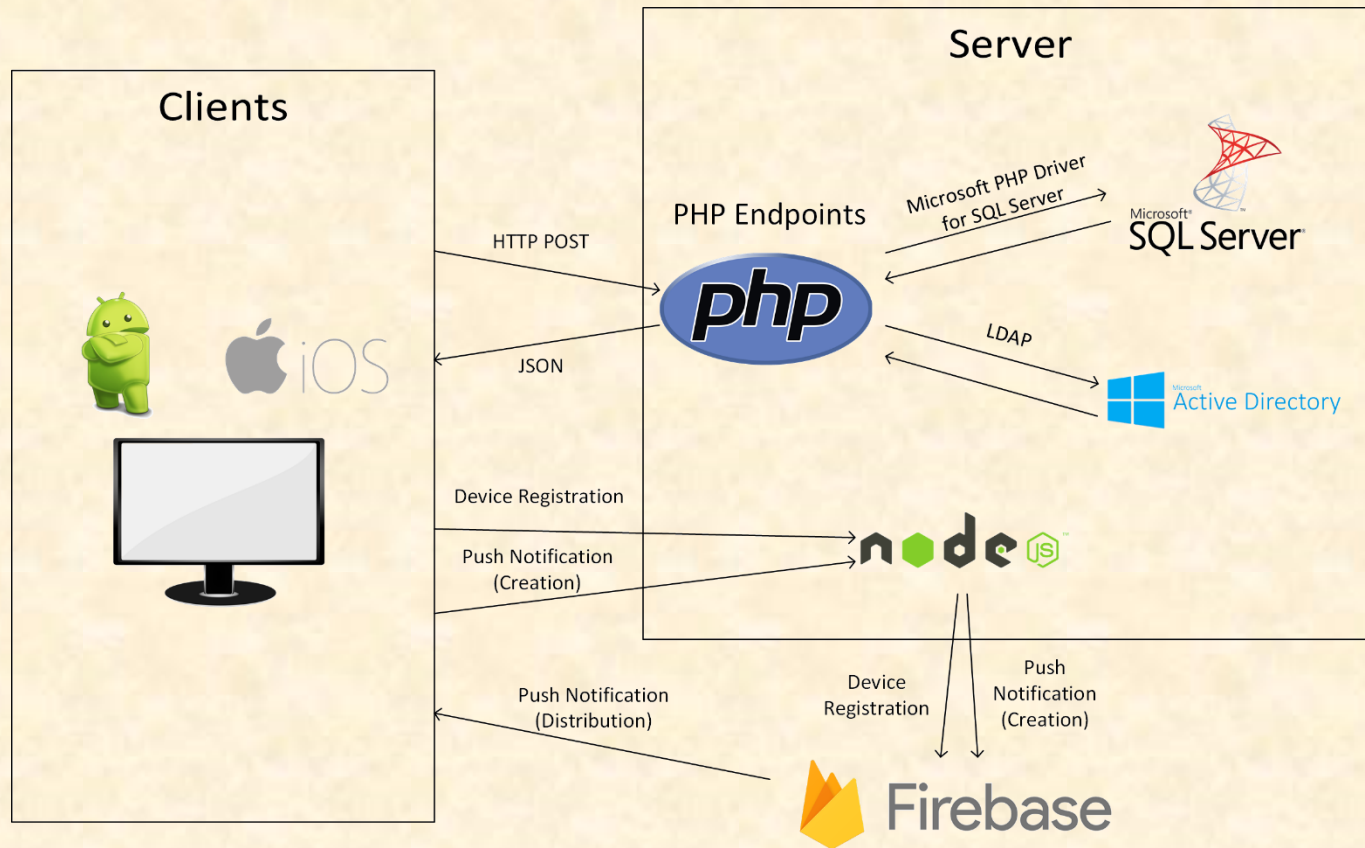

*From Students...
...to Professionals*

Project Overview

- Event management system for mobile and web
- Event administrators can create and edit events, add files to the events, create surveys and review responses, and invite attendees
- Event attendees can view all related materials for the events that they have been invited to, such as the surveys, activities, and files

System Architecture

What's left to do?

- Bug clean-up
- UI improvements
 - iOS display needs to be resizable for any device size
- SMS Notifications
- Present survey results to the event administrators
