Project Overview

- CAVE: Collaborative Audio/Video Editor
- Create projects with video, images and audio
- Synchronous: multiple editors at a time
- Secure: only invited users can see/edit project
- Shared, cloud-based media bin

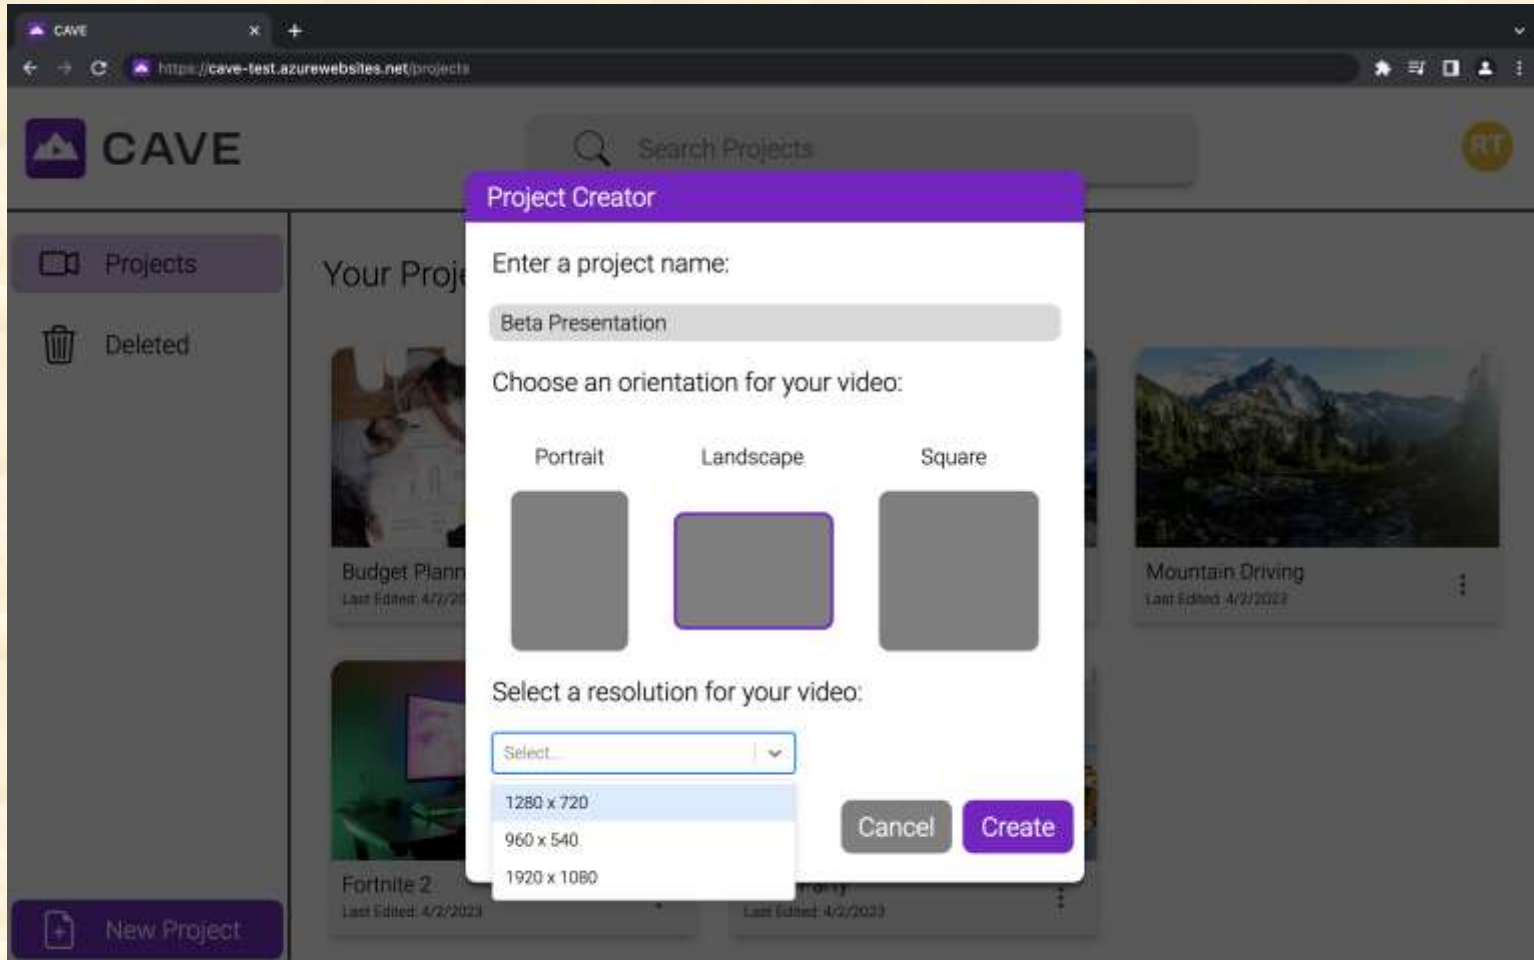

System Architecture

Projects Page

The screenshot shows a web browser window with the URL <https://cave-test.azurewebsites.net/projects>. The page features a purple header with the CAVE logo and a search bar labeled "Search Projects". A yellow "RT" badge is in the top right. A left sidebar contains "Projects" (selected) and "Deleted" options, along with a "New Project" button at the bottom. The main area, titled "Your Projects", displays five project cards: "Budget Planning", "Company Video", "Mountain Driving", "Fortnite 2", and "Pizza Party", each with a thumbnail image and a "Last Edited: 4/2/2023" timestamp.

Project Creator Modal

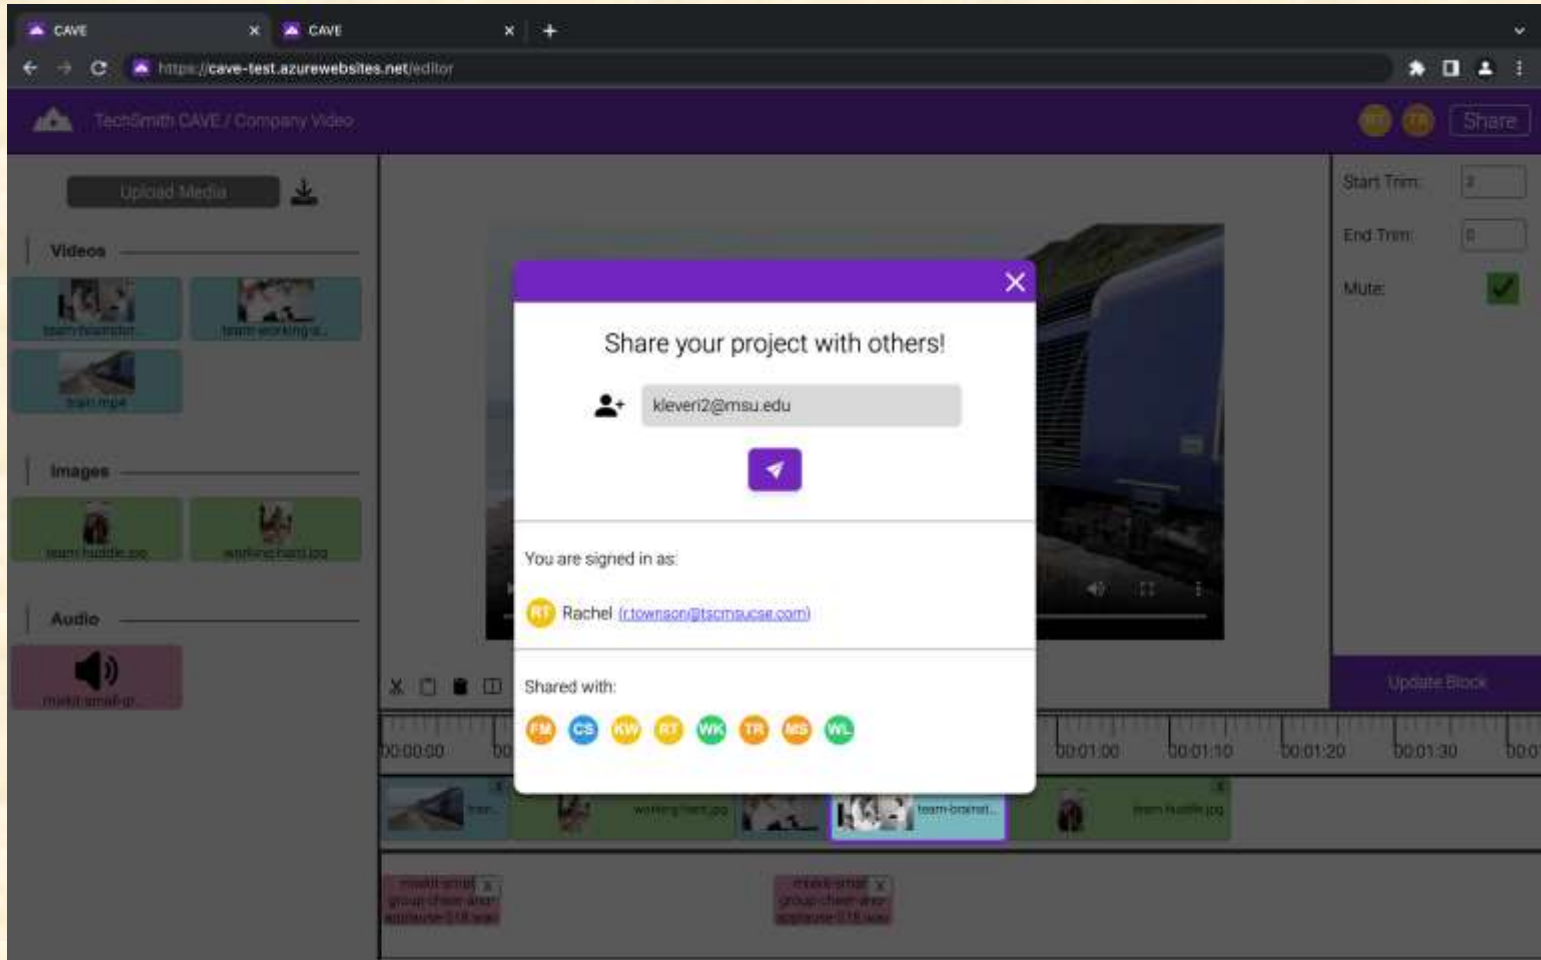

Project Editor

The screenshot displays the TechSmith CAVE Project Editor interface. At the top, the browser address bar shows the URL <https://cave-test.azurewebsites.net/editor>. The page header includes the TechSmith CAVE logo and a 'Share' button. On the left sidebar, there is an 'Upload Media' button and three categories: 'Videos' (with thumbnails for 'team-brainst...', 'team-working-a...', and 'train.mp4'), 'Images' (with thumbnails for 'team-huddle.jpg' and 'working-hard.jpg'), and 'Audio' (with a thumbnail for 'mikit-smal-gr...'). The main workspace features a video player showing a blue train on a track next to a beach. The video player has a progress bar at 0:00 / 1:15 and playback controls. To the right of the video player, there are trim controls: 'Start Trim: 2', 'End Trim: 0', and a 'Mute' checkbox which is checked. Below the video player, there is an 'Export' button and a 'Render in progress' indicator. At the bottom, a timeline shows the sequence of media blocks: 'train.mp4', 'working-hard.jpg', 'team-brainst...', 'team-huddle.jpg', and two audio files: 'mikit-smal-gr...group-cheer-and-applause-518.wav'. An 'Update Block' button is located at the bottom right of the workspace.

Share Project Modal

What's left to do?

- Stretch Goals
 - Add placeholder block with comments
 - Add second audio channel
 - Show loading time estimation on media upload
 - Use final CAVE implementation to create project video
- Other Tasks
 - Copy and paste error checking
 - Fix timeline bugs
 - UI improvements
