Spring 2024

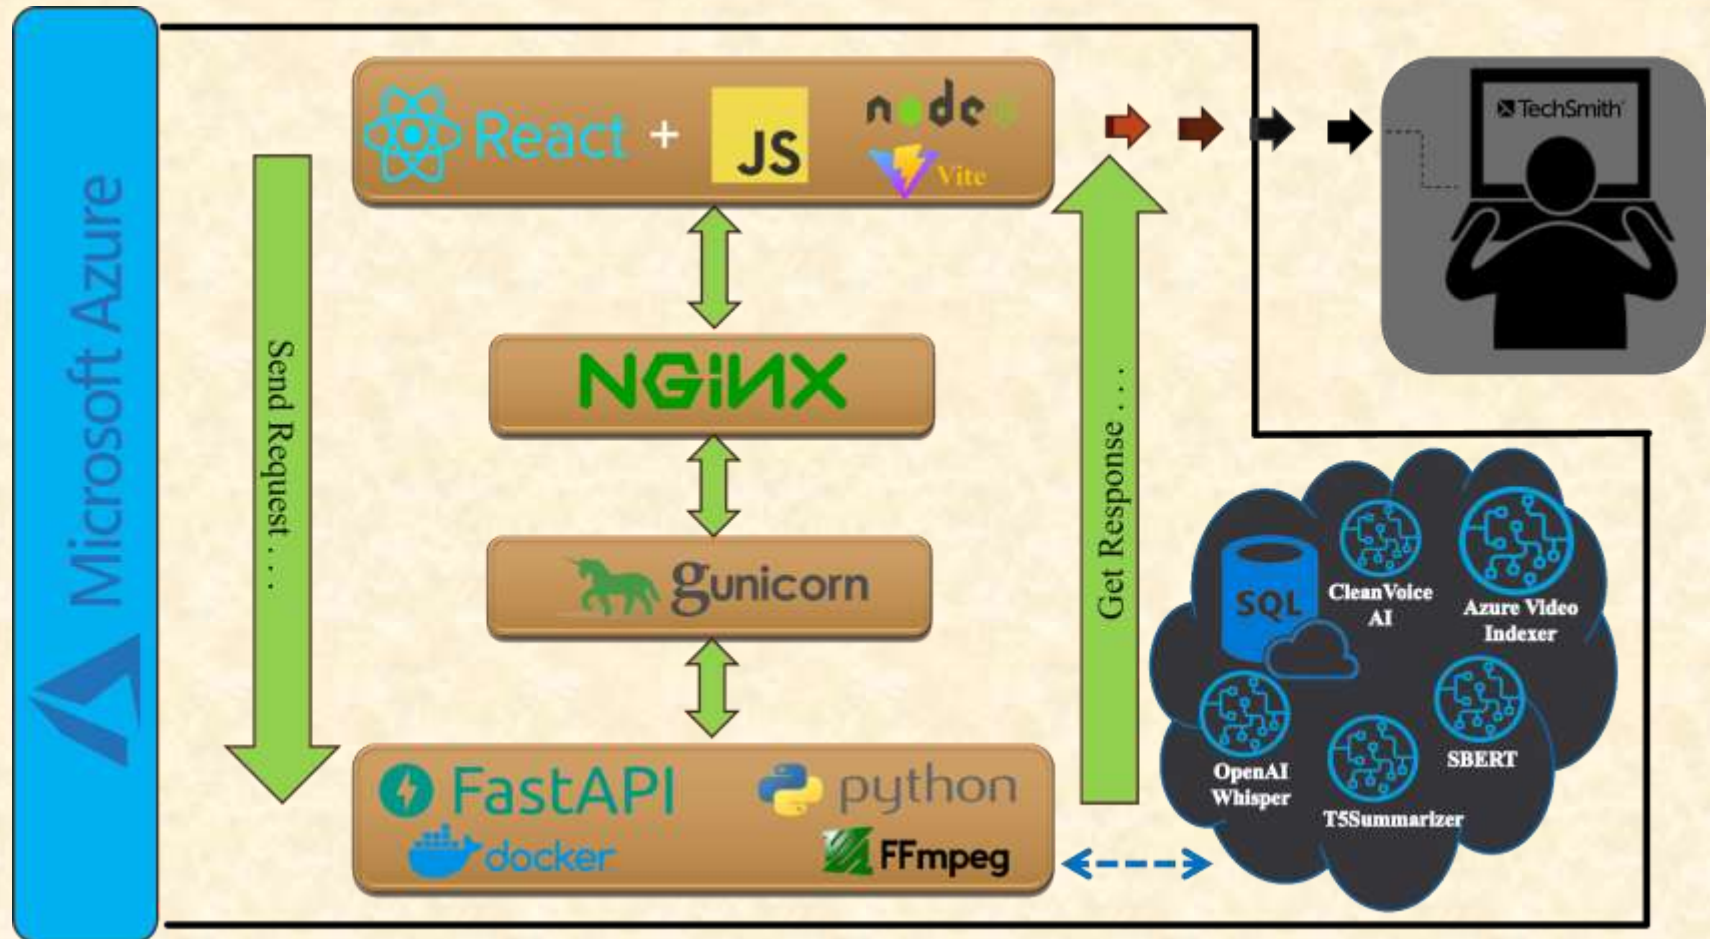

*From Students...  
...to Professionals*

# Project Overview

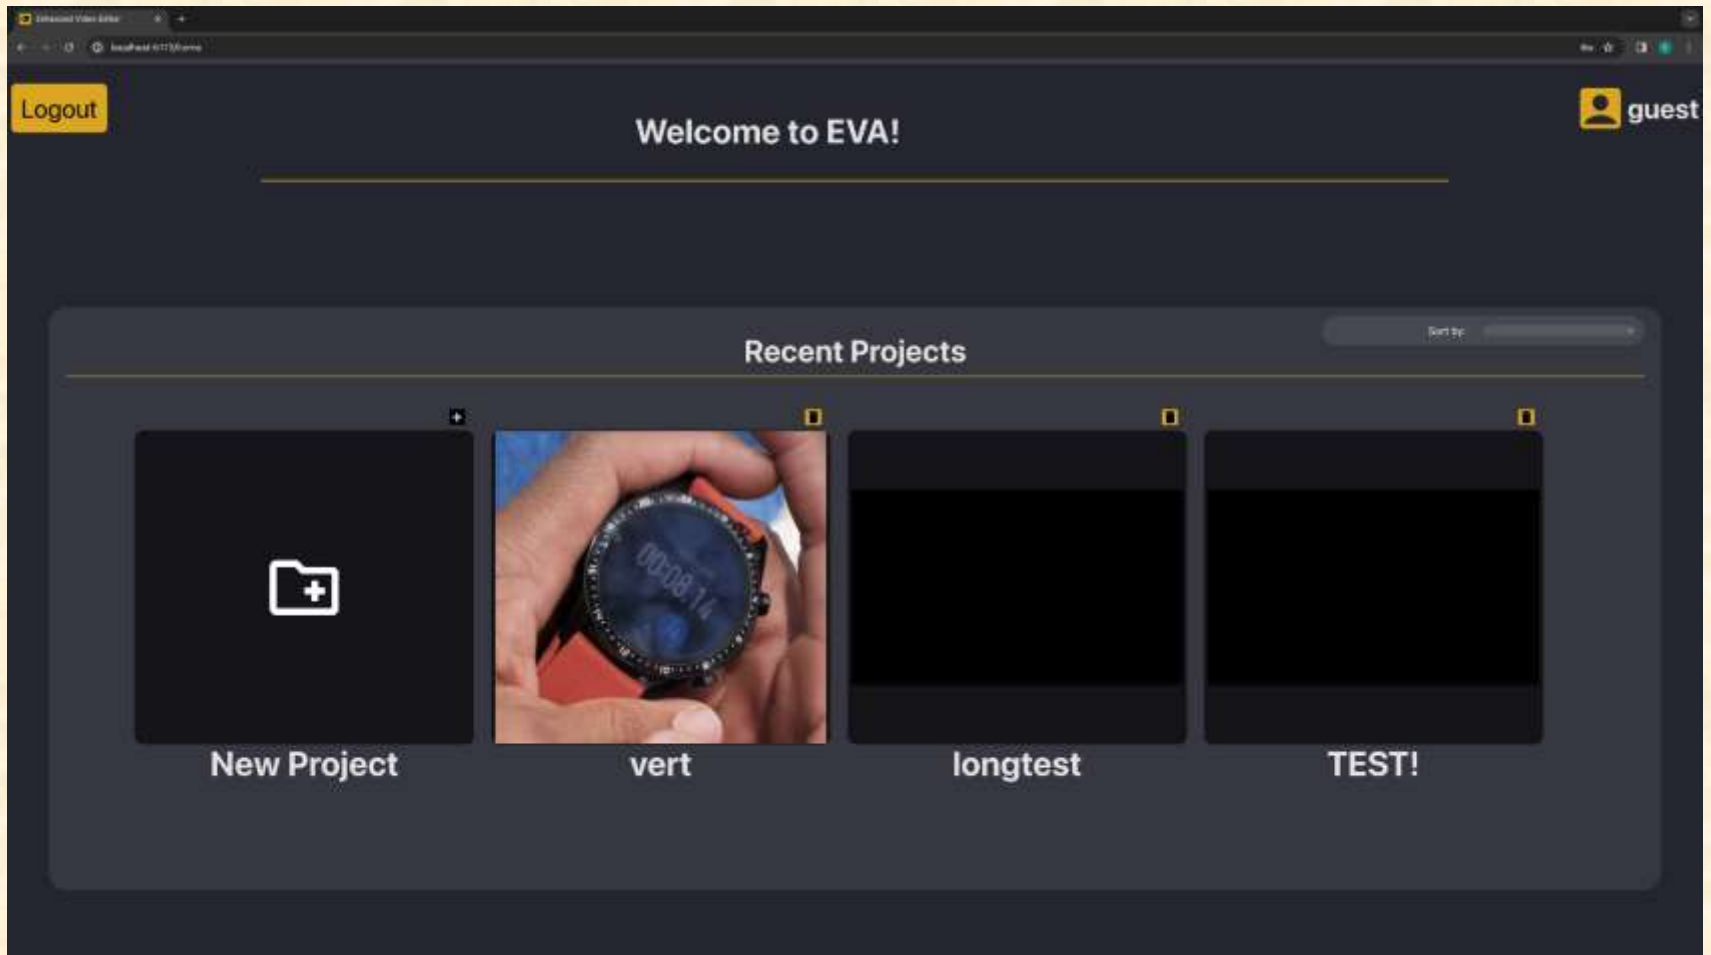

- Video editing is often challenging for beginners and can be time consuming for experts.
- EVA automatically completes a majority of the editing for the user.
  - Condenses video into its most engaging parts.
  - Improves narration and audio quality.
  - Provides suggested edits and feedback to the user.
- The goal is to make video editing as easy as possible, so that anyone can create engaging content.

# System Architecture

# Project Page

# Focus Group Tab

The screenshot displays the 'Focus Group' tab of a video editing application. The interface is dark-themed and features a top navigation bar with three tabs: 'Video Streamliner', 'Narration Improver', and 'Focus Group'. The 'Focus Group' tab is active, showing a video player with a scene of a group of people. Below the video player, there are playback controls including a play button, a progress bar at 00:10 / 01:07, and a 'More play options' dropdown. To the right of the video player, there are checkboxes for 'Normalize audio' and a blue 'Apply & Generate' button. Below these are two yellow buttons: 'Add Deleted Zone' and 'Activate Restore Mode'. A timeline at the bottom shows a yellow bar representing the video's duration from 00:00 to 01:07. On the right side of the interface, a 'Focus Group' panel is visible, containing three buttons: 'Tone', 'Clarity' (which is highlighted in blue), and 'Engagement'. Below these buttons is a 'Clarity Analysis' section with a 'Generate' button at the bottom.

# Narration Improver Tab

The screenshot displays the 'Narration Improver' tab of a software application. The interface is divided into three main sections: a video player, a control panel, and a detailed control panel on the right.

**Top Navigation:** Three tabs are visible: 'Video Streamliner', 'Narration Improver' (selected), and 'Focus Group'. A yellow icon with a black 'X' is on the left.

**Video Player:** Shows a video of hands typing on a laptop. The progress bar indicates 00:04 / 01:07. Below the player are buttons for 'More play options', 'Normalize audio' (checked), and 'Apply & Generate' (highlighted with a red box). At the bottom are 'Add Deleted Zone' and 'Activate Restore Mode' buttons.

**Right Panel: Narration Improver**

- Suggested Edit:** 'Restored DEADW at 7:54-8:14'. Includes a video player showing a dark scene with a progress bar at 005 / 1:07. A blue 'Restore' button is on the left. Time range: 00:07.54 - 00:08.14.
- Original:** A smaller video player showing the same scene with a progress bar at 008 / 1:07. Time range: 00:05.54 - 00:10.14.
- Bottom:** 'Suggested Edit: Restored DEADW at 24:37-24:79' and a large blue 'Clean up Audio' button.

# Video Streamliner Tab

The screenshot displays the 'Video Streamliner' tab of a video editing application. The interface is divided into several sections:

- Navigation:** At the top, there are three tabs: 'Video Streamliner' (active), 'Narration Improver', and 'Focus Group'. A yellow icon with a black 'X' is on the left.
- Video Player:** The main area shows a video of a red sports car at night. The video has a '60 MINUTES' logo. The playhead is at 00:28 / 01:07. Below the player are controls for 'More play options', 'Normalize audio' (checked), and an 'Apply & Generate' button.
- Timeline:** At the bottom, a timeline shows a series of yellow dots representing keyframes or markers. There are two yellow buttons: 'Add Deleted Zone' and 'Activate Restore Mode'.
- Removed Clips Panel:** On the right, a panel titled 'Video Streamliner Removed clips' contains two video thumbnails:
  - The first thumbnail shows a person in a dark setting with a 'Restore' button and a time range of 00:07.04 - 00:08.44.
  - The second thumbnail shows a man speaking, labeled 'WARDEN BUFFETT', with a 'Restore' button and a time range of 00:12.64 - 00:12.86. Below this thumbnail is a blue button labeled 'Extract key moments'.

# What's left to do?

## Stretch Goals

- Multiple Videos
- Improve accuracy of streamliner
- Decrease processing time for streamliner
- Other Tasks
  - Clean up UI
  - Bug Fixing / Stress Testing
  - Test with people unfamiliar with technology
